

## NORFOLK SUPPER 2016

A total of 42 diners attended the Norfolk Supper which was held at Bawburgh Golf Club near Norwich on Thursday 10th November which was jointly organised by Colin Wigg and Norman Porter.

The evening was a most enjoyable and convivial gathering supported by many OFs from outside the County including our President Chris Essex and his wife Eryl.

Chris spoke entertainingly about the Society including the Fowler Bequest gift of £500,000 for the new Sports Pavilion and also paid tribute to the late Tim Askew and John Birt.

Martin Myers-Allen, Senior master, detailed the considerable successes at both the College and Brandeston.

The evening concluded with an engaging presentation by Charlotte Findlay, a recent leaver (P09 - 11) who travelled to the Antarctic Peninsula in March this year as part of a scientific expedition from the University of St Andrews collecting data on oceanographic parameters relating to climate change. SOF contributed to her funding which enabled Charlotte to partake in this amazing adventure. Her presentation and talk, together with specific pictures from the Antarctic was hugely informative and extremely well received.
