

Framlingham Prizes

Speech-day at Framlingham has, for me, always released a flood of memories of people I have known and liked and admired. The Austin-Sparkes prize, coming high up in the batting order, is usually the trigger: though he was a couple of years ahead of me and in a different house, I remember him well – but can never quite be sure that he was the one who came in third in the Inter-set the year Woodbridge and Freshney (Kerrison, of course) ran a dead-heat in step, like the winners of the first London marathon. R H P Browne was another near contemporary: we played in the same scrum and both went into the Navy. I last met him not long before he was lost in the HOOD. I remember, too, the cool stone-flagged hall and home-made cider in his father's rectory at Earl Soham after a Quilibet's match.

Martin Bulstrode was a friend for many years. I once bought a bantam cock from Percy Clarke. Before it was incorporated in the Speech-day list, the Ellis Arthur prize was presented at the OF Suffolk supper and it fell to me to present the first award. My father was one of Inskip's pupils and talked of him a lot. I knew General Inskip and Alfred Pretty.

W E Winstanley was my housemaster and a lasting influence in my life. The memory of his last insult still rings in the ears: it was at my daughter's wedding and he was admiring a portrait painted by my sister-in-law; "It is remarkable", he said, "that a portrait can be so distinguished and still look like you".

For me, therefore, these prizes commemorate people: for most prizewinners, they commemorate only the names of people. I have long thought that something should be done to bring the names to life and my recent return to Suffolk has enabled me to offer to do it: these thumbnail biographies are the result. Much of the information comes from published sources, particularly the College histories – John Booth's *The First Sixty Years* and Leslie Gillett's *The Second Sixty Years* – and the *Framlingham College Register*. I am also grateful for help from Marian Prebble, Bob Morris and, of course, Tony Lawrence, with whom I have been in cahoots throughout.

Although the aim was to produce biographies of individuals, the result is almost a potted history of the College itself. We commemorate the generosity and far-sighted wisdom of the founding fathers in names like Ransome and Goldsmith; dominant influences in the school's growth in Inskip, Pretty and Brunger; affection and gratitude in Martin, Schofield, Wallace and many others; and the poignant grief of a young life of infinite promise cut off by war or sudden accident – Charles Soar and, most recently, Karen Buttenshaw are prime examples.

There is still much more to do – the Brandeston prize list, the prizes for sports and games, and those who are commemorated in buildings and the Houses. All, I believe, should be recorded before there is nobody left who remembers.
